Trimstix Fruit Punch (\$85.99 wholesale)

Love these! I drink mid afternoon as a sweet treat or, when I was working... on my way home from work mixed with my Collagen to tide me over until supper so I wouldn't mindlessly snack when I got home.

Trimstix Fruit Punch (they also have an orange pineapple and pink lemonade flavour but this flave is awesome) is a refreshing on-the-go drink mix specifically designed to help support healthy blood sugar levels in healthy individuals. Formulated with a patented proprietary blend of naturally-sourced ingredients, Trimstix is a delicious 10-calorie drink that curbs unwanted cravings to support healthy weight loss.

RESIST (\$52.99 wholesale)

I have these but honestly forget to take/eat them. You eat one before supper or in between meals. Resist mindless eating! Xyngular Resist can help control appetite and trick your stomach into feeling full faster. It's a yummy and fun way to cut down on calories.

They have a Fruit punch flavour which is yum or sometimes watermelon if in stock.
